

AccuAir's iLevel™ provides wireless control of your e-Level™ Air Suspension System through both Apple iOS and Android devices. The app is available for free download through the Apple App Store and the Google Play Store. The iLevel™ app is designed to look and operate very similar to the popular e-Level™ TouchPad™ interface. Your mobile device establishes a password-protected WiFi connection through the iLevel™ WiFi Module (same module for both iOS and Android devices) to provide instantaneous wireless control and feedback from more than 100 ft away.

#### Features:

- Offers full control over your e-Level™ Air Suspension System through an iPhone, iPad, iPod touch or Android Device.
- App is available for FREE download through the Apple App Store and Google Play Store.
- Requires purchase of the iLevel™ WiFi Module which is plug-n-play with all existing e-Level™ systems.
- Select or save from the e-Level™ system's 3 automatic height settings.
- Manually adjust the height of all four corners of the vehicle.
- Select the e-Level's "All-Down" function for parking.
- Intuitive system setup and selection of e-Level™ system features.
- Pop-up system diagnostics with helpful trouble shooting tips built-in.
- Fully operational with vehicle ignition ON and operates in "Key-Fob" mode with vehicle ignition OFF (allows 3 height and "All-Down" selection).
- "SmartSleep™" function prevents battery drain for extended parking.
